

How to be your foster pet's

Adoption Ambassador

Level Up Their Profile

We want our website to show off their true personality! Please send us:

- Updated Bio: Write a few short paragraphs from your perspective. What are they like? Do they get along with kids, cats, or dogs? Are they potty trained, etc.
- Photos & Videos: Send us your cutest, clearest shots. Videos are especially helpful and can be uploaded to our YouTube channel and linked directly to their profile!

Spread the Word

Don't just wait for the right person to find our website, bring the pet to them!

- Social Media: Post on Facebook, Instagram, and TikTok.
- Community Boards: Utilize Nextdoor or Facebook groups.
- Share the little things that make them unique, the way they tilt their head or how they "talk" when it's dinner time.

Be the Point of Contact

Once adoptable, your contact information will be added to their website profile so potential adopters can reach out directly.

- Communication: Please keep an eye on your texts, calls, or emails. A quick response can make all the difference!
- Meet & Greets: You can host these at a park, your home, or the shelter, depending on what's best for your specific pet!
- We've Got Your Back: If you ever feel uneasy about an adoption or need help with counseling a potential adopter, speak with our Foster Department or Dog/Cat teams. We are here to support you!

Get Out on the Town

Adoption events are a fantastic way to get pets seen by people who aren't looking online.

- View the Calendar: Check out upcoming events here:
highcountryhumane.org/calendar
- Let us know you're coming: Email events@highcountryhumane.org to let us know which event we can expect you at.
- Not a "Crowd" Dog or a "Dogs" Dog? If your foster gets stressed in big groups or being around other dogs they don't know, we can host single-dog adoption events specifically for them! Contact the foster team to discuss in detail.

Staying in Touch

If weeks-months go by without interest, even after social media posts and events, let's chat. Especially for puppies/kittens, we want to ensure they find a home quickly. If things aren't moving, we can discuss bringing them back to the shelter to try a new environment and getting you a new foster in need!

Thank you for being such an amazing advocate for your foster pet(s). We couldn't do this life-saving work without you.
